

C-DIVERS Dive Planner 2010

You can print this planner at any size, or view it on screen. If you view it on your computer, you can zoom right in to see additional information, such as dive boats and their locations. Each of these is also a hyperlink which, if clicked, will open in a browser window. For the boats, it'll be their website. For the locations, it'll be a "live" Google map or satellite view, from which you'll also be able to get travelling directions, distances and times.
